INDEX OF SUBJECTS

Access pits for continuous measurement, installation and evaluation (Howse and Goss), 267
Age, effects on elemental nutrients of celosia cultivars (Omueti), 89
Agricultural Plants, by R. H. M. Langer and G. D. Hill, reviewed by P. M. Smith, 415
Agricultural research, a microcomputer-based data-capture system for (McNicol, Ng and Kidger), 255
Agronomy (The) of the Major Tropical Crops, by C. N. Williams, reviewed by C. C. Webster, 221
Alaska peas, growth and developmental stages (Meicenheimer and Muehlbauer), 17
Arachis hypogaea, see Groundnut
Assessment (An) of pest damage on grain sorghum (Flattery), 319

Bamboo Research in Asia, ed. by G. Lessard and A. Chouinard, reviewed by N. W. Simmonds, 103
Barley, intercropped, effects of planting pattern (Martin and Snaydon), 139
Bean yield potential and growth analysis (Fanjul, Kohashi-Shibata and Hernandez-Xolocotzi), 167
Beans, intercropped, effects of planting pattern (Martin and Snaydon), 139
Biochemistry of Silage (The), by P. McDonald, reviewed by J. M. Wilkinson, 329
Biomass, ed. by J. Coombs and D. O. Hall, reviewed by J. L. Monteith, 415
Broom's Barn: the first 20 years (Cooke, Jaggard, Draycott, Scott, Webb and Golding), 105
Bulrush millet, effects of planting schedule and intercropping with green gram (May), 149

Camellia sinensis, see Tea
Cassava, effects of fertilizers and plant age on nutrient distribution (Okeke, Kang and Obigbesan), 403
Cassava, gas exchange of four cultivars in relation to light intensity (Palta), 375
Cassava, investigating source–sink relations by reciprocal grafts (Dahniya, Oputa and Hahn), 399
Celosia argentea, see Celosia
Celosia cultivars, effects of age on elemental nutrients (Omueti), 89
Chlorflurenolmethylester, and induction of orthotropic shoots in coffee (Stemmer, Van Adrichem and Roorda), 29
Cicer arietinum, see Chickpea
Coconut plantations, light transmission and pasture composition under (Litscher and Whiteman), 383
Coffea arabica, see Coffee
Coffee, inducing orthotropic shoots with the morphactin chlorflurenolmethylester (Stemmer, Van Adrichem and Roorda), 29
Continuous measurement, installation of access pits permitting (Howse and Goss), 267
Cotton, effect of sowing dates on water requirements (Taha, Malik, Chaudhry and Makhdum), 209
Cowpea, effects of planting dates on pest infestation, yield and harvest quality (Ezueh), 311
Cropping systems (Improved) for the deep Vertisols of the Indian semi-arid tropics (Reddy and Willey), 277
Cultivar and location, effects on seed protein in chickpea (Dahiya, Kapoor, Solanki and Waldia), 289
Cultural Practices and Infectious Crop Diseases, by J. Palti, reviewed by R. L. Wastie, 414

Data-capture system (A), for agricultural research based on a microcomputer (McNicol, Ng and Kidger), 255
Defoliation, effects on yield and forage quality of various crops (Osman and Abu Diek), 157
Dry matter distribution, symbiosis and nitrogen in chickpea (Evans), 339
Dry season protein for cattle, *Stylosanthes guyanensis* standing hay (Lamboll), 79

Energy in Agriculture, ed. by B. A. Stout, reviewed by J. L. Monteith, 415
Experimental farm, setting up and managing: 20 years at Broom's Barn (Cooke, Jaggard, Draycott, Scott, Webb and Golding), 105

Farming, Development and Space: A World Agricultural Geography, by B. Andreae, reviewed by D. K. Britton, 330
Fertilizers and plant age, effects on nutrient

distribution in cassava (Okeke, Kang and Obigbesan), 403
Floral Initiation in Field Crops. An Atlas of Scanning Electron Micrographs, by M. W. Moncur, reviewed by M. M. Yeoman, 103
Flowering pattern and reproductive efficiency of oilseed sesame (Saha and Bhargava), 293
Forage sorghum, effects of irrigation interval, urea and gypsum on N, P and K uptake on clay (Abdel Magid, Mustafa and Ayed), 177

Gas exchange of four cassava cultivars in relation to light intensity (Palta), 375
Gossypium hirsutum, see Cotton
Grain sorghum, assessment of pest damage (Flattery), 319
Green gram and bulrush millet, effects of planting schedule and intercropping (May), 149
Groundnut hypocotyl region, nodulation (Nambiar, Dart, Srinivasa Rao and Ramanatha Rao), 203
Growth analysis of pole bean (Fanjul, Kohashi-Shibata and Hernandez-Xolocotzi), 167
Guinea grass, nitrogen fertilization (Chew, Ramli and Majid), 73
Gypsum, and N, P and K uptake by forage sorghum on clay (Abdel Magid, Mustafa and Ayed), 177

Historical data, guide to selecting systems for intercropping (Pearce and Edmondson), 353
Hordeum sativum, see Barley

Indian semi-arid tropical Vertisols, improved cropping systems (Reddy and Willey), 277
Intercropping barley and beans. I. Effects of planting pattern (Martin and Snaydon), 139
Intercropping two species, historical data as a guide to selecting systems (Pearce and Edmondson), 353
Introduction to Integrated Pest Management, by M. L. Flint and R. van den Bosch, reviewed by H. F. van Emden, 219
Ipomoea batatas, see Sweet potato
Irrigated Rice Production Systems: Design Procedures, by J. K. Wang and R. E. Hagan, reviewed by T. W. Tanton, 221
Irrigation interval, and N, P and K uptake by forage sorghum on clay (Abdel Magid, Mustafa and Ayed), 177

Land equivalent ratios, statistical assessment of different ways of calculating (Oyejola and Mead), 125
Leaf blight on maize (Ayuk-Takem and Chheda), 299
Lens culinaris, see Lentils
Lentils, ed. by C. Webb and G. Hawtin, reviewed by J. Smartt, 219
Lentils, controlled environments as an adjunct to field research. II. Research strategy (Summerfield and Meuhlbauer), 3
Light intensity, and gas exchange of four cassava cultivars (Palta), 375
Light transmission and pasture composition under coconut plantations (Litscher and Whiteman), 383
Liming, of sweet potato in Malaysian acid peat (Chew, Joseph, Ramli and Majid), 65

Maize, effects of leaf blight and rust in lowland and highland environments (Ayuk-Takem and Chheda), 299
Maize, effects of planting density on leaf area and productivity (Remison and Lucas), 93
Management of Insect Pests with Semiochemicals, Concepts and Practice, ed. by E. R. Mitchell, reviewed by H. F. van Emden, 219
Manihot esculenta, see Cassava
Microcomputer-based data-capture system for agricultural research (McNicol, Ng and Kidger), 255

Napier grass, nitrogen fertilization (Chew, Ramli and Majid), 73
Nitrate-nitrogen leaching, minimizing by parallel multiple cropping in long-duration row crops (Yadav), 37
Nitrogen Cycling in West African Ecosystems, by T. Rosswall, reviewed by P. B. Tinker, 413
Nitrogen, symbiosis and dry matter distribution in chickpea (Evans), 339
Nodulation in the hypocotyl region of groundnut (Nambiar, Dart, Srinivasa Rao and Ramanatha Rao), 203
Nutrient distribution in cassava, effects of fertilizers and plant age (Okeke, Kang and Obigbesan), 403
Nutritional Evaluation of Protein Foods, ed. by P. L. Pellett and V. R. Young, reviewed by R. Passmore, 104

Oil Palm Diseases and Disorders, by P. D. Turner, reviewed by R. L. Wastie, 413
Orthotropic shoots in coffee, inducing with the morphactin chlorflurenolmethylester (Stemmer, Van Adrichem and Roorda), 29

Panicum maximum, see Guinea grass
Papaver bracteatum, effect of planting date on flowering rate and capsule yield (Levy and Palevitch), 305
Parallel multiple cropping, minimizing nitrate-nitrogen leaching in long-duration row crops (Yadav), 37
Peas, Alaska, growth and developmental stages (Meicenheimer and Muehlbauer), 17
Pennisetum americanum, see Bulrush millet
Pennisetum purpureum, see Napier grass
Pest damage on grain sorghum, an assessment (Flattery), 319
Phaseolus aureus, see Green gram
Phaseolus vulgaris, see Bean
Pisum sativum, see Pea
Plantation Agriculture (2nd edn), by P. P. Courtenay, reviewed by C. C. Webster, 104
Planting date, effect on flowering rate and capsule yield of *Papaver bracteatum* (Levy and Palevitch), 305
Planting dates, effects on pest infestation, yield and harvest quality of cowpea (Ezueh), 311
Planting density, effects on leaf area and productivity of maize cultivars (Remison and Lucas), 93
Planting pattern, effects of intercropping barley and beans (Martin and Snaydon), 139
Planting schedule and intercropping, effects on green gram and bulrush millet (May), 149
Plot shape, effect on variability in Smith's variance law (Narayana Reddy and Ramanatha Chetty), 333
Proceedings of Symposium on Paddy Soil, ed. by Institute of Soil Science, Academia Sinica, Beijing, reviewed by A. Wild, 414
Production and Utilization of Protein in Oilseed Crops, ed. by E. S. Bunting, reviewed by K. F. Thompson, 415

Rainfall measurements, analysis for agronomically useful results. I. Direct methods, 223; II. A modelling approach (Stern, Dennett and Dale), 237
Reciprocal grafts, for investigating source-sink relations in cassava (Dahniya, Oputa and Hahn), 399
Reproductive efficiency of oilseed sesame and flowering pattern (Saha and Bhargava), 293
Rice on calcareous soils, effects of zinc on yields and zinc content (Rai, Singh, Sinha and Prasad), 43
Rice, upland, growth and development at three altitudes in Thai highlands (Chamberlin and Insomphun), 363
Robusta bananas, effects of water supply on female flower production (Holder and Gumbs), 183
Rural Technology Guides, by various authors, reviewed by N. W. Simmonds, 219
Rust on maize (Ayuk-Takem and Chheda), 299

Sago, The Equatorial Swamp as a Natural Resource, ed. by W. R. Stanton and M. Flach, reviewed by N. W. Simmonds, 220
Seed protein in chickpea, effects of cultivar and location (Dahiya, Kapoor, Solanki and Waldia), 289
Seeds of Plenty, Seeds of Want. Social and Economic Implications of the Green Revolution, by Andrew Pearse, reviewed by A. H. Bunting, 101
Sesame, oilseed, flowering pattern and reproductive efficiency (Saha and Bhargava), 293
Sesamum indicum, see Sesame
Smith's variance law, effect of plot shape on variability in (Narayana Reddy and Ramanatha Chetty), 333
Soil Resource (The), Origin and Behaviour, by Hans Jenny, reviewed by K. Simpson, 102
Soil temperature, diurnal variations under tea plants (Othieno), 195
Spices, by J. W. Purseglove, E. G. Brown C. L. Green and S. R. J. Robbins, reviewed by N. W. Simmonds, 330
Statistical assessment of different ways of calculating land equivalent ratios (LER) (Oyejola and Mead), 125
Stylosanthes guyanensis hay as protein for cattle (Lamboll), 79
Sweet potato, liming needs in Malaysian acid peat (Chew, Joseph, Ramli and Majid), 65
Symbiosis, nitrogen and dry matter distribution in chickpea (Evans), 339

Tea, environmental factors affecting yield. I. Effects of air temperature (Tanton), 47; II. Effects of soil temperature, day length, and dry air (Tanton), 53
Tea plants, diurnal variations in soil temperature under (Othieno), 195
Terrestrial Nitrogen Cycles, ed. by F. E. Clark and T. Rosswall, reviewed by J. K. R. Gasser, 102
Tobacco, by B. C. Akehurst, reviewed by C. C. Webster, 330
Tropical Agricultural Hydrology, ed. by R. Lal and E. W. Russell, reviewed by D. C. Ledger, 329
Tropical and Subtropical Fruits: Composition, Properties and Uses, ed. by S. Nagy and P. E. Shaw, reviewed by N. W. Simmonds, 103

Upland rice, growth and development at three altitudes in Thai highlands (Chamberlin and Insomphun), 363
Urea, and N, P and K uptake by forage sorghum on clay (Abdel Magid, Mustafa and Ayed), 177

Variability, in Smith's variance law, effect of plot shape on (Narayana Reddy and Ramanatha Chetty), 333
Vegetable Farming Systems in China, ed. by D. L. Plucknett and H. L. Beemer, Jr, reviewed by N. L. Innes, 220
Veld and Pasture Management in South Africa, ed. by M. M. Tainton, reviewed by John Hodgson, 329
Vertisols of the Indian semi-arid tropics, improved cropping systems (Reddy and Willey), 277
Vicia faba, see Field beans, Beans
Vigna unguiculata, see Cowpea

Water requirements of cotton, effect of sowing dates (Taha, Malik, Chaudhry and Makhdum), 209
Water supply, effects on female flower production by Robusta bananas (Holder and Gumbs), 183
Weed-Crop Competition - A Review, by Robert L. Zimdahl, reviewed by F. Harper, 101

Yield of tropical grasses, legumes and mixtures, effects of defoliation (Osman and Abu Diek), 157

Zea mays, see Maize
Zinc, effects on yields and zinc content of rice varieties (Rai, Singh, Sinha and Prasad), 43
Zinc, requirements of different crops (Tiwari and Pathak), 393

INDEX OF AUTHORS

Abdel Magid, E. A., Mustafa, M. A. and Ayed, I. Effects of irrigation interval, urea and gypsum on N, P and K uptake by forage sorghum on highly saline-sodic clay, 177

Abu Diek, A. A., *see* Osman, A. E.

Ayed, I., *see* Abdel Magid, E. A.

Ayuk-Takem, J. A. and Chheda, H. R. Effects of leaf blight and rust on maize in lowland and highland Cameroon environments, 299

Bhargava, S. C., *see* Saha, S. N.

Britton, D. K. Review of *Farming and Space: A World Agricultural Geography*, by B. Andreae, 330

Bunting, A. H. Review of *Seeds of Plenty, Seeds of Want. Social and Economic Implications of the Green Revolution*, by Andrew Pearse, 101

Chamberlin, R. J. and Insomphun, Songchao. Growth and development of upland rice at three altitudes in the highlands of northern Thailand, 363

Chaudhry, F. I., *see* Taha, M. A.

Chew, W. Y., Ramli, K. and Majid, A. B. A. Nitrogen fertilization of guinea and napier grass (*Panicum maximum* and *Pennisetum purpureum*) in Malaysian oligotrophic peat, 73

Chew, W. Y., Joseph, K. T., Ramli, K. and Majid, A. B. A. Liming needs of sweet potato in Malaysian acid peat, 65

Chheda, H. R., *see* Ayuk-Takem, J. A.
